DXAC VOTE POSTPONED. The DXAC was to vote on a number of important topics August 24th, but the vote has now been postponed until September 28th. The reason for the rescheduled vote is because the CRRL representative had not received any correspondences in over one month. Information will be sent again to the CRRL representative so the vote can take place in September.

The DXAC has been asked by the ARRL Awards Committee to study and recommend an addition to the DXCC rules that addresses abuses in QSLing practices pertaining to individuals and DXpeditions. The DXAC is looking for input by the DX community world-wide on this subject. Please send comments and suggestions to: DXAC, c/o ARRL, 225 Main Street, Newington, CT 06111.

DXCC TIDBITS..... Ron, WB3LHD, has received a letter from a DXCC Staff

person stating the operation of 5X5WR/A was an unauthorized operation. Also the latest TDXB reports that a ban on amateur radio is still in affect in Uganda..... The DXCC still has not received documentation for the Tunisian operation by 7X5ST/3V.... 5R8JD is still no good for DXCC credit (waiting for proper doc's)..... QSLs for S2/WZ6C and S21NQ are currently not acceptable for DXCC....
